# Recommendation #1

Adopted by FACJJ in May 2016

Existing federal law should be amended to explicitly exempt juveniles (all persons who were below the age of 18 at the time of their offense) from all sex offender registration, community notification, and residency restriction laws.

*Rationale (overview): Since the passage of federal law requiring the registration of juvenile sex offenders, a wealth of studies have shown no net measurable public safety benefits but have identified multiple unintended negative consequences to youth, victims of sexual abuse and families of both.*

# Draft Proposed Recommendation #2

Juveniles charged with sex offenses should receive evidence based treatment commensurate with their criminogenic risk, criminogenic needs, and responsivity. Broader efforts should focus on preventing problematic juvenile sexual behavior through early identification and appropriate evidence based interventions.
